Dear County Executive Latimer,

Jeremy M. Saland
(914) 238-4774

The New Castle Airport Advisory Committee wanted to thank you for following through on keeping any change of airport governance out of the final budget. Whatever revenues that could potentially be realized are far outweighed by the cost to the County and its residents that would result from a loss of control of this asset which is already a challenge to manage under the current governance and regulatory structure.

Town Administrator
Jill Simon Shapiro
(914) 238-4742

In the coming months, we are counting on your administration to use all available resources to proactively support the residents of New Castle and other surrounding communities by addressing the environmental impact of the airport and to significantly curtail New Castle's noise exposure to levels that are consistent with the reasonable expectations of local families who have endured unacceptable changes in quality of life over the past few years.

Happy Holidays!

Sincerely,

New Castle Airport Advisory Committee
